# **CITY COUNCIL AGENDA REPORT**

**SUBJECT:** Provide direction to staff regarding whether to discontinue planning and scheduling public workshops related to requesting proposals for conducting a feasibility study on developing a new toll system at the Calexico/Mexicali Border Crossings.

**AGENDA DATE:** August 3, 2010

**APPROVED FOR AGENDA BY:** Victor Carrillo, City Manager

**RECOMMENDATION:** It is recommended the City Council provide direction to staff:

**FISCAL IMPACT:** Unknown at this time. If staff is directed to continue with the planning and scheduling of the public workshops, fiscal impact would be minimal. Fiscal impact would include costs of using a city facility after normal business hours as well as possible staff time to prepare for and attend the public workshops.

**BACKGROUND INFORMATION: (Prior action/information)**

At the City Council meeting of July 20, 2010 a motion was made by Councilman Romero, seconded by Councilman Hodge, and passed unanimously to not authorize the City Manager and City Clerk to post and publish the attached Request for Proposal for Development Teams to propose to assist the City in analyzing, developing, constructing and operating a new toll system to be established at the Calexico/Mexicali Port of Entries. The motion was amended to include having staff plan and schedule public workshops to discuss the pros and cons of requesting proposals for such a toll feasibility study.

**DISCUSSION (Current consideration):**

There has been much public concern over continuing discussions of a possible toll feasibility study and the perceived negative impact such continued discussions could have on local merchants and the economy. Staff is asking the council to provide direction as to whether to discontinue with the planning and scheduling of the public workshops at this time.
